Isotopic Analysis Price Sheet

DESCRIPTION	QUANTITY	UNIT PRICE	COST
Solid samples, $^{15}\text{N} + ^{13}\text{C}$, preweighed, RTA*		\$ 9.00	\$ 0.00
Charge for preparing solid samples for analysis		\$ 5.00	\$ 0.00
Surcharge for grinding under liquid N_2		\$ 5.00	\$ 0.00
Water H/D, ^{18}O analyses		\$ 15.00	\$ 0.00
Solid samples, ^{18}O , preweighed, RTA*		\$ 15.00	\$ 0.00
Nitrate ^{15}N		\$ 50.00	\$ 0.00
DOC ^{13}C , fresh waters (salinity < 1 ppt)		\$ 50.00	\$ 0.00
Fatty Acid Methyl Esters, ^{13}C , RTA*		\$ 50.00	\$ 0.00
		Subtotal	\$ 0.00
Total \$			0.00

*RTA=Ready to analyze

All isotopic analyses are referenced to external international standards as well as internal working standards. Prices are provided as guidance, however the exact sample analysis cost will depend on the nature of the samples submitted and will be given by separate quote after consultation with Dr. Brandes. Other isotopic analysis are possible at SISSIL, including amino acids, sugars, carbonates, atmospheric gasses, and dissolved organic nitrogen. The exact cost of these analyses will depend upon sample matrix, preparation time, and desired isotope/level of precision.

Sincerely yours,

Jay Brandes
